

AdvaTX Post-Care Instructions

- No strenuous exercises for 24 hours after treatment
- Do not use AHA's, BHA's or Retinol's or Renova for 72 hours after treatment
- Avoid direct sunlight for 72 hours safter treatment. When exposed to sun, wear a wide-brim hat and SPF 30 or greater
- Wash your face morning and night with a gentle cleanser
- Continue use of vitamins, treatment products, hydrators, and sunscreen unless directed otherwise
- If redness or sensitivity occurs, wash your face and apply a cool compress for ice back. If sensitivity continues for more than 12 hours, please consult your skin care professional
- If you are prone to oral herpes, the treatment you received may cause a breakout. Ask your Doctor for a treatment such as Valtrex
- Do not peel or pick at crusting skin. This will cause scarring or discoloration to the treatment area
- Keep skin will-hydrated with appropriate moisturizer
