

## **PiXel8-RF Microneedling**

### **Post-Care Instructions**

- A certain degree of discomfort, redness and/or irritation during and after treatments is expected. If any discomfort or irritation persists more than 24 hours, please notify ReGenesis Plastic Surgery and Dermatology. 970-242-8177
- Tiny scabs (less than 1mm in diameter) may form 24-72 hours post treatment and may remain for several days. The scabs should not be touched or scratched (even if they itch) and should be allowed to shed naturally.
- During the first two days following the treatment, care should be taken to prevent trauma to the treated area. Avoid hot baths, massage irritation skin care products and exfoliants, etc. The skin should be kept clean to avoid contamination or infection. Any mechanical or thermal damage to the area must be avoided.
- For burning sensation, spritz the treatment area with a water-diluted vinegar solution. (Ratio 1:8)
- It is important to keep your skin moisturized after the treatment.
- You may have mild swelling for 1-3 days after treatment. Applying ice may alleviate swelling.
- For redness you may apply hydrocortisone cream 3-4 times per day
- Avoid prolonged sun exposure and use of a tanning bed for at least 2-5 weeks, as the skin that was treated will be more sensitive to the sun
- Use a minimum of SPF 30 daily to protect your skin after your treatment.

For a medical emergency please call 911. If you have any questions or concerns, please call our office at 970-242-8177
